Update Game Control

The update game control will allow you to add new games to your schedule or make any of the changes you need from your schedule. It is now a great combination of usability and flexibility built into one nice control.

The screenshot shows a web-based interface for updating a game. The title is "Update Game #11". On the left, there are four dropdown menus: "Game date and time", "Select Home Team", "Select Away Team", and "Select a Venue/Field". The main area contains several input fields: "Date" (09/08/2012), "Time" (8:00 AM), "Home" (United FA England 04 - A001), "Away" (CUSA Courage 03 White - A002), "Venue" (Nicholas Ball), "Field" (Nicholas Ball #3), and "Type" (Round Robin). There are also checkboxes for "Points game" (checked) and "Game counts in standings". On the right, there is a "Game Result" section with input fields for "Home Score" and "Away Score", and checkboxes for "Overtime", "Shootout", "Forfeit", and "Text Msg" (checked). At the bottom right, there is an "Advanced Options" button. The interface also includes a "Delete" button, a "Refresh" checkbox, and a "Save" button.

The left hand side will give you a number of different options that you can change, but will come pre-populated with the most commonly used settings.

Game Date and Time

You can change this option to add your game with any of these options:

- Date and Time
- Date only
- Date only – show a pending message for the time
- Unscheduled

Selecting Teams

When selecting the team in the game, you can select:

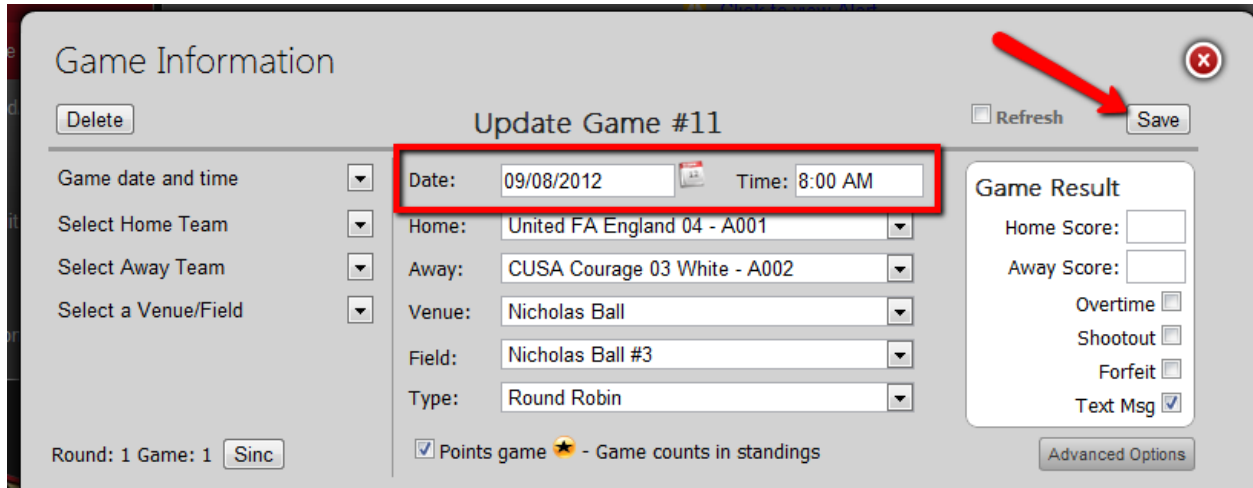

- A specific team in this division
- A team outside of this division but in the same age group
- Any team by their registration number
- A team to be determined by the standings (Determine by points)
- A team to be determined by the outcome of a prior game (Determine from prior game)
- Override – Simply type in any team name – the game will not be connected to any actual teams

Selecting Venue/Field

If you select the venue and field, we will provide a link on that game to the provide teams with a google map for that game. However, you can choose to “Type in a field name” which will put whatever you type in as the field – but this will not give teams access to a map.

Changing the Date and Time

To change the game date and time, enter in the new date and time and click the “Save” button

The screenshot shows the 'Update Game #11' form. The 'Date' field is set to '09/08/2012' and the 'Time' field is set to '8:00 AM'. A red box highlights these two fields. A red arrow points from the top right towards the 'Save' button. The form includes a 'Delete' button, a 'Refresh' checkbox, and a 'Save' button. The 'Game Result' section has input fields for 'Home Score' and 'Away Score', and checkboxes for 'Overtime', 'Shootout', 'Forfeit', and 'Text Msg'. The 'Advanced Options' button is at the bottom right.
